

MEAT
— MY —
BUTCHER

WELCOME TO MEAT MY BUTCHER

About us

This project was started with both Butchers and Customers in mind.

Our aim is to provide a top-quality website to any and all butchers worldwide so that they can expand their business to an online audience.

This pandemic has seen many people struggle to get fresh produce, which is why we have stepped in. Our systems have already helped hundreds of people receive fresh goods from their local butchers with ease and we hope to replicate this with many others.

We don't charge a penny for the site build, domain, hosting and marketing, we simply ask for a small 3% of the money made from sales via your online shop. Nothing more. This is to ensure that each Butcher that works with us has minimal outgoings to keep their online store running smoothly.

Meet some of our customers

Take a look!

Kennedy's Butchers

Bare Village Butchers

Gregory Williams Butchers

Welcome to Meat My Butcher, we're honoured that you have chosen to sign up to our service and look forward to providing you with a high quality, easy-to-use online store.

Before we can get cracking, we need a bit of information from yourselves. We want to ensure that the website we build for you is perfect, so the info that we ask for is crucial for the development of the site. Read through the next pages and then fill in our form at the end!

Important Information

What we need!

First of all, we need to know what your preferred domain name (website name) would be. There's no guarantee that you will get the one you desire, but we will try our best to acquire it.

A full list of your products is also required, including their prices and images. A spreadsheet will be provided for you to add your products, however, if you're unsure as to how a spreadsheet works then a simple word document with all the details will suffice. If images are going to be an issue for you, then please call us for a quote.

Important Information

What we need!

An example of what the spreadsheet should look like, can be found by clicking this [link](#).

Looks complicated? Don't worry we can help with any issues!

(This will be requested after the initial form is filled in)

Important Information

What we need!

We would appreciate it if you could provide some background to your company. Like a small 'About Us' piece detailing information such as the length of time you have been in business, whether its been passed down through generations etc. Don't worry too much about the quality of writing though, we can re-write the details that you provide us with.

If you offer a delivery service, please let us know which post codes you cover so we can implement that into the system.

Important Information

What we need!

The last two things that we require are your payment information (Bank Transfer Details or PayPal Email Address) as well as a high-quality picture of your company logo. (This will be requested after initial form is filled in)

Payments will be taken safely and securely, no details will be compromised and the utmost care will be taken to ensure the highest security.

We want to get you up and running as quickly as possible so your cooperation is essential to the development.

What happens next?

Find out below

Once we have all of the information required, we will aim to have your website ready within 3-5 working days. Training will also be given on how to use the site and manage your orders effectively. No matter how inexperienced you may be, we are confident that you will pick it up in no time.

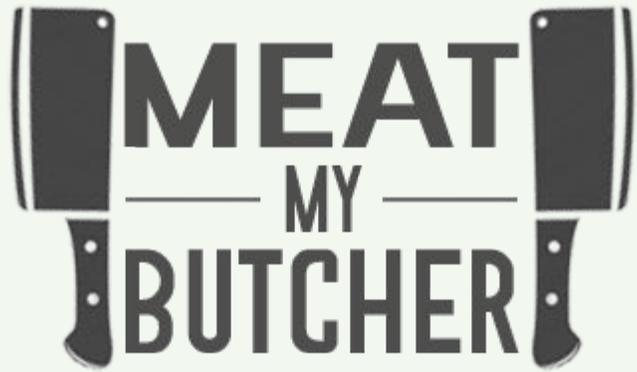

If you have any questions then please do not hesitate to contact us, otherwise, please send us the information that we require and we will have your online store ready in no time.

The Form

Fill it in!

Below is a form for you to fill in, that will allow our account managers to start setting up your website. Any other issues please contact us on any of our social media accounts or our email address info@meatmybutcher.com
